Experience the Difference

King of Kings is accredited by the National Lutheran Schools Association. Children are provided the opportunity for positive growth in many areas including spiritual, social, emotional, intellectual, and physical. Our daily schedule includes strong core academics in addition to specialty topics that develop the whole child into a whole, fulfilled person.

Growing in Faith

Students pray together and learn about God’s love for them through the gift of His Son, Jesus Christ. Chapel and Religion are included in the weekly schedule.

High Academic Expectations

We are committed to teaching a Biblical, accredited curriculum and providing quality, innovative educational programs that prepare our students for fulfillment and success in life.

Spanish

King of Kings begins Spanish language instruction starting in preschool and continues throughout eighth grade. All students have the opportunity to hear, speak, and understand Spanish from its ABC’s to the conjugation of verbs.

Small School Community

Our small size benefits students in many ways.

- Teachers know and care about your child.
- **Family groups** are formed with King of Kings students from each grade. The groups pray together at chapel and do fun activities together. Family groups provide opportunities for leadership development and peer mentoring.
- There are opportunities for your children to play in many sports regardless of his/her ability level.

Preparing Students for the Future

To prepare students for life in a changing world, we teach them to believe in a future full of possibilities and in their own potential. We provide progressive opportunities including:

- iPad program for upper grades
- Specialty topics, enrichment activities during and after school
- Partnership with Concordia Academy

The King of Kings Difference

1. Quality, Christ-centered education
2. Small class sizes
3. Caring teachers, loving environment
4. Multi-grade activities
5. Whole-child development

What Parents Are Saying About Us
- “Small class sizes.”
- “Great Christian education, academically, as well as spiritually.”
- “The excellence of the teachers and staff.”
- “A small school in the big city.”
- “It feels like a family, and each child is known individually.”
- “Students have the opportunity to try many sports and extra-curricular activities to see where their gifts and strengths are.”
- “It is affiliated with the Church and it has been around for 50 years.”
- “Premier education above public school levels.”
- “The school creates a safe and caring environment that is Christian and loving.”

We Believe in Your Child
King of Kings welcomes families of all ethnicities and religious affiliations. We are committed to helping each child realize their God-given gifts, to discover the plan God has for their lives, and to strive for higher levels of excellence.

iPad Program
In 2013, iPads were issued to 8th grade students with future plans of integrating the iPads at all grade levels. iPads provide access to resource materials that enhance the curriculum. The iPad program supports our students with tools to help prepare them for today and tomorrow’s digital world.
